

S18 - 18" SUBWOOFER

Sound reinforcement heavily relies on good solid bass performance. Reasons being:

A good majority of musical information is low frequency material

AND

Low frequency reproduction is less efficient, Watt for Watt, and pound for pound (compared to midrange and high frequency transducers); BUT, should be reproduced **LOUDER** than the midrange and high range!

Our **S18 subwoofer** product helps answer the demand for bass:

- Easily handled by one person
- Extra solid construction
 - 13 ply 18mm Baltic Birch
 - 5 internal braces
- 28 - 150 Hz usable frequency range
- 1000 Watt continuous (AES standard)
- 2000 Watt program power handling
- Ultra durable driver for high output sub frequencies
- 98 dB 1W/1m and 126 dB long term continuous output
- 134 dB maximum output
- HWD 24" x 24" x 21.5" or 610mm x 610mm x 546mm
- 95lbs or 43kg
- 2 Neutrik NL4 speakon connectors
- Heavy duty castors, grill and handles
- Black vinyl polymer coating
- Available options
 - Installation version
 - Custom finishes
 - Flyware
